Try different bindings

Build your manual or book from one or more files and preview how it would look with different binding types, binding colors, printing colors and covers. You can even flip through the book to verify that any page-specific selections, such as the location of a tab, appear as you intended. Consider ordering a few to pick up in the store, and then ordering a larger quantity for delivery.

The screenshot displays the 'Copies' section of the Office Depot online printing interface. It includes a sidebar with binding options (Copies, Manuals, Spiral Bound Book, Comb Bound Book, Tape Bound Book, Wire Bound Book) and a main configuration area with tabs for 1. Print Options, 2. Finishing Options, and 3. Advanced Options. The 'Print Options' tab is active, showing settings for Binding Types & Color, Front Cover, Back Cover, Perforation, Lamination, and Shrink Wrap. The 'Advanced Options' tab is also visible, showing settings for Remove Pages, Add Slipsheet, Add Index Tabs, and Customize Pages & Files. A 'Special Instructions' section is at the bottom. The main configuration area shows the Project Name 'Medical Training Manual', Pages '24', and Quantity '1'. It also includes options for Paper Sizes, Paper Types, Fit Paper, Color, Sides, Orientation, and Collate. A 'Get Quote' button is at the bottom left. The right side of the interface shows a preview of a 2-Bed - 2 Bath A floor plan, with a price of \$959 for 12 installments. A 'Feedback' button is on the right side of the preview. The bottom right corner shows the 'Add to cart' button and the 'Your Price: \$7.32'.
