

Georgia Pacific Spectrum® Paper

- 100% post-consumer recycled fiber
- Process chlorine free
- Acid free for archivability
- SFI® chain of custody certified

Georgia-Pacific has a long history of practicing sustainability. Their activities are categorized using the three dimensions of sustainability - social, environmental and economic performance. Spectrum® 100 is produced locally in Camas, Washington and meets the requirements of Substitute House Bill 2287.

Spectrum® 100% Recycled Multi-Use paper is a great way to make an even more impactful statement with your documents. Manufactured using 100% post-consumer recycled fiber, this paper is both process chlorine free and acid free as well as SFI® Chain of Custody certified. Produced to the same high quality performance standards as our non-recycled papers, Spectrum 100% Recycled Multi-Use paper is just another way that Georgia Pacific can help you make a difference.
