Shopping Cart

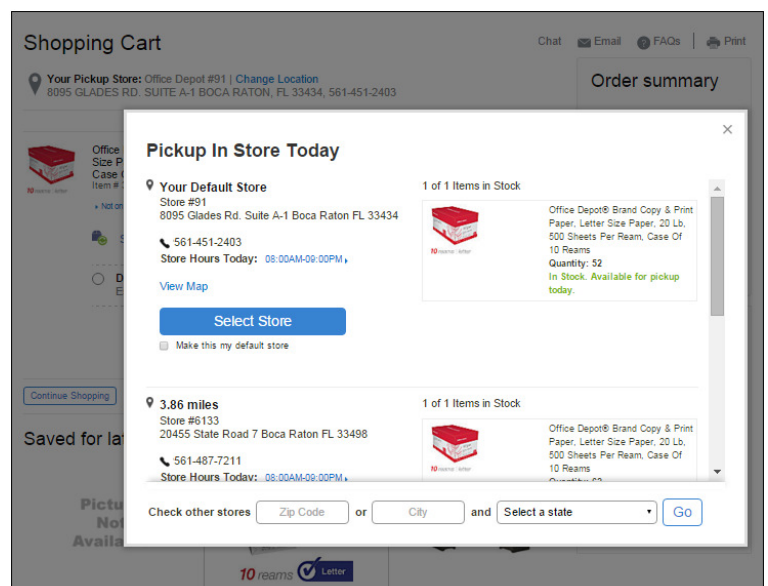

After adding items to the shopping cart, users can select some or all of the items for store pickup. Below each item are radio buttons for 'Delivery' and 'Pickup in store today' with 'Delivery' selected by default. When multiple items are present in the shopping cart, if the user clicks 'Pickup in store today' on one of the items a prompt will appear offering to apply store pickup to all the items in the cart.

Once store pickup is selected for any of the items in the shopping cart, the pickup store's street address and phone number appear at the top of the shopping cart along with a 'Change Location' link to select a different store.

After clicking 'Change Location', users can enter a zip code or City/State to view the item's availability at other stores and select a different store for their current order.

Checkout

When an order has one or more items selected for store pickup, the checkout page will display a new '**Store Pickup**' section that contains the pickup store's street address and phone number and the following two options: '**I will pickup the item**' (selected by default) or '**Someone else will pickup the item**'.
