

DYMO®**LabelWriter® Label Printers****LABEL PRINTING MADE EASY WITH DYMO LABELWRITER® LABEL PRINTER**

The DYMO LabelWriter label printer eliminates the hassles of printing sheet labels with a standard printer – and trips to the Post Office. Print labels for envelopes, packages, files, media, name badges and more right from your desktop computer without hassling with sheets or printer jams.

- Small compact printers print dozens of label styles – even postage labels – in about a second, up to 55 labels per minute*. (LabelWriter 400 printer model prints up to 40 labels per min.).*
- Print one label or hundreds whenever you need them.
- Each LabelWriter printer includes easy-to-use DYMO software plus print directly from Microsoft® Word, Outlook®, QuickBooks® and other popular programs.

- LabelWriter printer now supports DYMO Stamps™, the new service that lets you print postage from your PC with no monthly fee** and no long term commitments. (NOTE: LabelWriter 400 model printer does not support DYMO Stamps™).

- Twin Turbo model holds two rolls – mix and match different label styles.

- The LabelWriter Duo label printer offers the features of the 400 Turbo model with the added versatility of a DYMO electronic labelmaker built right in!

**WHY CHOOSE THE DYMO LABELWRITER PRINTER?**

- 400 model prints up to 40 labels per minute.
- 400 Turbo and Twin Turbo models print up to 55 labels per minute*, plus new DYMO Stamps™ postage labels.
- Duo model prints labels and tapes in one machine using the same software.
- 300 DPI resolution thermal printing never requires any ink or toner.
- Over 40 styles and sizes of labels to choose from.
- Compatible with Windows® 2000 / XP® and Mac OS X 10.2.8 or later.
- Includes everything to get started plus starter rolls of address and DYMO Stamps™ postage labels (NOTE: LabelWriter 400 model does not support DYMO Stamps™).
