Dear Valued Customer:

Thank you for your continued inquiries regarding a Material Safety Data Sheet (MSDS) for BIC products.

BIC values your business and prides itself in being responsive to our customers.

BIC writing instruments, lighters, shavers, correction fluid and correction pens are "consumer products," as defined by the Consumer Product Safety Act (15 U.S.C.A. 2051, et seq.), and not hazardous chemicals. As such, BIC products are exempt from MSDS requirements when they are manufactured, used or distributed pursuant to OSHA guidelines (see 29 C.F.R. 1910.1200(b), (c) and (g)). As a result, it is BIC's understanding that an MSDS is not required for consumer products such as BIC writing instruments, lighters, shavers, correction fluid and correction pens. However, as a service to our valued customers, we have prepared and attached the MSDS you requested.

Thank you for this opportunity to be of service.

Very truly yours,

BIC CORPORATION

Steven Burgert
Manager of Safety and Health Services
