## Section VII - Precautions for Safe Handling and Use

|                                                                                                                                                 |
|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Steps to Be Taken in Case Material is Released or Spilled: As the product is soaked in a porous reservoir. There is no possibility of spillage. |
|                                                                                                                                                 |
|                                                                                                                                                 |
| Waste Disposal Method: Dispose of in accordance with local government requirements for mild acid disposal.                                      |
|                                                                                                                                                 |
| Precautions to Be taken in Handling and Storing: Store in a cool dry area. Keep container tightly closed                                        |
|                                                                                                                                                 |
| Other Precautions:: Avoid exposure to skin, eyes & nose.                                                                                        |
|                                                                                                                                                 |
