Eyes – in case of contact, immediately flush eyes with plenty of water for at least 15 minutes.
Call a physician.

Skin – flush with water. Get medical attention if irritation is persistent.

Ingestion – No specific intervention is indicated, as the material is not likely to be hazardous by ingestion. Do not induce vomiting, as the hazard of aspirating the material into the lungs is a greater hazard than allowing it to progress through the intestinal tract.

Reactivity Data

Stability – Material is stable. However, avoid open flames and high temperatures.

Product Name: CD-ROM Disk Cleaner

Incompatibility (Materials to Avoid) – Alkali or alkaline earth metals – powdered AL, ZN, BE, etc. The components of these blends can decompose by high temperatures (open flames, glowing metal surface, etc.) forming hydrochloric and hydrofluoric acids and possible carbonyl halides.

Hazardous polymerization – Will not occur.

Conditions to avoid – (1) Keep out of reach of children. (2) Avoid inhaling, ingesting and getting close to eyes and skin. (3) Avoid heat, flame, and other sources of ignition.

Spill or Leak Procedures

Keep away from fire, skin, eyes and prevent inhaling and ingesting. Use water spray to reduce vapors. Take up with sand or other non-combustible absorbent material and place into container for later disposal. Flush area with water.

Protective Equipment

Ventilation: No special ventilation is required for the normal use.

Respiration Protection: Respiration is normally not required for the normal use.

Eye/Skin Protection: glasses, gloves, and suitable protective clothes are recommended to avoid direct skin/eye contact.

Storage and Handling Precautions

Keep container tightly closed. Store in a cool, dry, well-ventilated, flammable liquid storage area. Avoid direct skin/eye contact.
