Green Supplies

GREEN OFFICE Q & A

“My staff is always bugging me to go green. I’d buy green products if they weren’t so darn expensive.

— Penny Pincher in Poughkeepsie

Once upon a time, green products did cost more. As they’ve become more popular, though, more manufacturers are making them. Now, green options are often competitively priced. Take paper products. Many brands now use post consumer recycled content, including our great Imperial Impressions™ Recycled Towels, Item # 717290.

Buy Green, Be Green, Sell Green

At Office Depot®, we’re committed to bringing you a comprehensive selection of green office products and services. But we don’t just talk the talk — we walk the walk. In 2009, Office Depot received the first-ever Outstanding Environmental Leadership award from Office Products International, a leading office products trade group, for our long-standing track record in environmental responsibility. Learn more at officedepot.com/environment.

Set a Nature Friendly Table

Plates made from sugar cane. Cups made from corn. These Nature Friendly™ kitchen products are compostable (where composting facilities exist). The plates and bowls are oil- and water-resistant... they’re even microwaveable! Utensils are heat-resistant to 190°F. And once you’re done with your Nature Friendly items, you don’t have to worry about them sitting in a landfill — they’ll break down naturally when composted.

Nature Friendly™ 9" Plates, Item # 426495

Nature Friendly™ Cutlery, Item # 713030

Nature Friendly™ Cold Cups, Item # 876885

Nature Friendly™ Hot Cups, Item # 876695a

Additional Nature Friendly™ products available online.
