

You have more paper power!

We've expanded the line of paper products we carry for the kitchen, bathroom and breakroom. We now have your favorite brands of paper towels, hand towels and toilet paper, along with a range of paper plates, bowls and cups.

New paper products, new pricing! We've brought together what we believe is one of the best selections of paper products you'll find anywhere. Look at the names in the blue box and you'll probably see your preferred brand.

And we've worked hard to make our prices low, low, low. So you can afford to keep your office supplied with the brand you like best.

Meet Imperial Impressions™, a new line of quality paper products! Imperial Impressions products show how the recycling movement has matured. This complete line of paper towels, hand towels, facial tissue, toilet paper and napkins uses recycled content, with NO sacrifice in quality. And, at a great price! Give them a try.

Stop that paper waste!

People often take more than they need — which costs you money. How can you cut down on paper towel waste?

A dispenser is a good idea. With a dispenser, people are more likely to use just one. Check out a "roll control"-type dispenser like the one pictured.

If your towels sit on the countertop, post a note asking people to think of the environment and use just one. You'll save trees — and money.

Kimberly-Clark® In-Sight Roll Control Center Pull Towel Dispenser, Item # 848968

Scott® Roll Control Towels, Case of 6 Rolls, Item # 823416

Recycle — ahead of time!

Napkins, paper towels, facial tissue and toilet paper don't get recycled — they go straight into landfills. If you'd like to help the environment, do your "recycling" ahead of time: look for products that use recycled paper, especially post consumer recycled content. With every purchase, you're saving trees.

Imperial Impressions™ Recycled Napkins, Pack of 500 Napkins, Item # 717315
